Cardiac and Cardiology Component Waits – Supporting Guidance

Changes to Version 1 of the guidance are detailed below, with new text being highlighted in ==blue== and deletions shown with a ~~strikethrough~~.

<u>Introduction</u>

The purpose of this document is to provide additional guidance to that contained in Appendix B of DSCN 2021 / 26. It is being published as a separate document to the DSCN as the guidance is specific to WelshPAS users.

<u>Background</u>

DSCN 2021 / 26 introduced an aggregate data collection to support waiting list management for cardiac and cardiology patients. Several metrics in that pro forma (see list below) refer to *any other clock stop event*:

Clock Stop – Relative – Component 1 – Referral to Any Other Clock Stop Event
Clock Stop – Relative – Component 2 – Decision to Treat to Any Other Clock Stop Event
Clock Stop – Actual – Component 1 – Referral to Any Other Clock Stop Event
Clock Stop – Actual – Component 2 – Decision to Treat to Any Other Clock Stop Event

This document lists examples of WelshPAS Outcomes that can be considered *any other clock stop events.*

==**Note:** Version 1-0 of this guidance listed codes *91 Did Not Attend* and *92 Could Not Attend* as Outcomes for Any Other Clock Stop Event. These should not have been listed as such as patients are still waiting. Consequently, the codes are struck through in the table below.==
