Data Set Change Notices are available at request from the above address. In the near future they will be available on the Intranet Service HOWIS.

DSCN numbering format = sequence number/year of issue, (W) for Welsh DSCN's.

DATA SET CHANGE NOTICE 38/2001 (W) *Amendment*

Reference No: DCTG/01/W

Version No: 2

Subject: The addition of code (27) in METHOD of ADMISSION for emergency patients admitted via the NHS Direct Service.

The inclusion of a default ~~N9999998~~ N9999997 in the Referrer Code for such admissions.

The inclusion of ~~RCVLA~~ RVCLA in the referring organisation data field for emergency admissions via NHS Direct Services (Wales).

This code is to be used for any NHS Direct Service site referring within Wales.

Type of Change: The current Trust PAS systems will need to update their master-files to include the new code. The PEDW master-files will need to be updated to reflect these code inclusions.

Reason for Change: Following the recommendations of the WHIMG which, recognised the need to accurately record the emergency pressures on the service and the routes the patients are taking to obtain access to emergency services in NHS Wales. It has been agreed to include this additional code in Method of Admission, Referrer code and referring Organisation Code for patients admitted via the NHS Direct Wales route.

Effective Date: 1st September 2001

Effect on NHS Data Dictionary:

The data dictionary version 2.3 will reflect the new codes.
