[News Article: Covid-19: Complaints after England booking site reveals vaccine status](#)

The NHS is revising the booking system for Covid-19 jabs in England after complaints that it could reveal individuals' vaccination status.

By entering details such as their name, date of birth and postcode it may be possible to work out if another person has been given both doses, one or none.

[News Article: Peloton security flaw would have let anyone access user data](#)

Earlier this year a security researcher discovered that it was possible to make unauthenticated requests to the company's API to gain access to Peloton users' account data.
