[UK's NCSC Offers Security Tips as Co-op Confirms Data Loss](#)

A cyber-attack on the Co-operative Group (Co-op) last week was worse than initially thought, with the UK retailer admitting that customer data was stolen.

[Security and Verification Concerns Debate Over Data \(Use & Access\) Bill](#)

The UK's latest revision to data legislation has benefits in relation to the explicit encouragement for organisations to share data to combat financial crime and changes to "Legitimate Interest",

[Passkeys Set to Protect GOV.UK Accounts Against Cyber-Attacks](#)

Cybercriminals have become adept at bypassing common authentication methods, including intercepting codes sent via SMS using techniques such as adversary-in-the-middle phishing kits. Passkeys are cryptographic credentials tied to a user's account on a website or application, with sign-in enabled by a biometric sensor, such as fingerprint or facial recognition.

This eAlert is intended for staff, both within Digital Health and Care Wales and other NHS organisations, who may have an interest in Information Governance issues that affect the NHS in Wales. If you have any articles which you feel would also be useful to colleagues, please feel free to forward them for inclusion in our next edition. Digital Health and Care Wales is not responsible for the contents or reliability of the linked websites and does not necessarily endorse the views expressed within them. Listing shall not be taken as endorsement of any kind. We cannot guarantee that these links will work all of the time and we have no control over availability of the linked pages.
