The Information Commissioner's keynote speech looks at how data protection can affect people's lives. [See also: How our approach to regulation is supporting economic growth](#)

[Data protection and AI: what to know about new UK cyber standard](#)

In a significant move positioning the UK at the forefront of responsible AI adoption, the government has introduced what it calls a "world first" AI-focused cyber security code of practice. The Code of Practice for the Cyber Security of AI represents a crucial step in creating a secure environment for AI innovation while protecting digital infrastructure from emerging threats.
