#### DATA SET CHANGE NOTICE

### NHS Wales Short Stay Surgery Basket of Procedures

## **Introduction**

The NHS Wales Short Stay Surgery Basket of Procedures was introduced on 1<sup>st</sup> April 2009. It was introduced to replace the Audit Commission Basket of Day Case Procedures, which was recognised as being outdated and not reflective of the delivery of short stay surgery in Wales. Formal approval to adopt this basket and discontinue the use of the Audit Commission Basket of Day Case Procedures was given by the Welsh Information Governance and Standards Board (WIGSB) on 18<sup>th</sup> December 2008.

Over the course of 2009/10, a further review of the Basket of Procedures has been carried out with a view to extending it to introduce procedures that should be carried out (i) predominantly in an outpatient setting or (ii) within a 1-3 day length of stay.

A revised NHS Wales Short Stay Surgery Basket of Procedures, now containing 50 procedure groups, was mandated via Ministerial Letter (EH/ML/041/09) on 16<sup>th</sup> December 2009.

It is intended that the basket outlined below will be reviewed on an annual basis in order to ensure it remains up-to-date and is reflective of current operational practice in place across Wales. It should be noted that through this annual review of the Welsh Basket of Procedures, NHS Wales will have the opportunity to influence both the content of future editions of the BADS Directory of Procedures and the clinical codes associated with the procedure groups.

## Description of Change
